

Marseille City Public Safety System, Guaranty Urban Public Safety

Project Background

- Marseille is one of the most important ports and the second biggest city in France. The city security is very important.
- City surveillance is an important measure to keep the city safe.
- The project is a turn-key project. 1000 HD cameras were installed in main roads, downtown areas, scenic spots and other population-intensive areas.

Solution Highlights

- Cooperate with French top integrator and world-famous platform suppliers in this project.
- Provide a super large storage center and optical fibers to ensure the storage and transmission capability for HD cameras.
- Provide 7/24 professional after-sales services.

Customer Benefits

- The city becomes much safer than before.
- The crime rates are lowered and the economic growth is accelerated.
- People now enjoy a safer and more wonderful life.
